

## CS 415-2 Fully automatic

Finely engineered turntable ensures maximum analogue listening pleasure

**Tone arm:**  
Balanced tone arm. Pre-set tracking force and anti-skating. Headshell with 1/2 inch fixing holes. Torsion-resistant headshell.

**Chassis:**  
Solid wooden frame. Floating subchassis. Aluminium platter with anti-static felt mat.

**Drive:**  
Belt drive with polished flat belt. DC motor with electronic speed control. Viscosity-damped tone arm lift mechanism. Automatic tone arm cueing mechanism. Autostop with tone arm return.

DMS 251 S magnetic cartridge supplied.

**Dimensions/Weight:**  
440 x 119 x 360 mm / 5.4 kg

CS 415-2

CS 410

## CS 410 Fully automatic

Midi-format turntable with built-in pre-amp

**Tone arm:** Balanced tone arm. Pre-set tracking force. Magnetic cartridge with diamond stylus.

**Chassis:** Featuring special floating feet. Aluminium platter. Anti-resonance rubber turntable mat.

**Drive:** Belt drive with polished flat belt. DC motor with electronic speed control. Viscosity-damped tone arm lift mechanism. Automatic tone arm cueing mechanism. Autostop with tone arm return. Record size selection: 17/30 cm. DMS 402 S magnetic cartridge supplied.

**Dimensions/Weight:** 360 x 349 x 98 mm / 2.5 kg

# turntables

made in Germany

Top quality,  
long product life and customer-oriented service.

Large numbers of DUAL turntables are still being successfully produced and sold today. This success is also set to increase in coming years thanks to the current retro trend. This brochure features the latest models sold by Sintron.

## CS 505-4 Semi-automatic

Simple and easy to operate:  
semi-automatic turntable with fine pitch control.

### Tone arm:

Cardan bearing with zero-mass tracking force setting thanks to precision torsion spring. Removable headshell with 1/2 inch fixing holes. Adjustable tracking force and anti-skating. Carbon-fibre headshell mount for high torsional rigidity.

### Chassis:

Special adhesive used to give wooden frame extra rigidity. Full board with floating suspension. Vibration-damped aluminium platter with thick anti-static felt mat.

### Drive:

Belt drive with polished flat belt. 16-pole synchronous motor with fine pitch control. Viscosity-damped tone arm lift mechanism. Autostop with tone arm lift. OMB 10 magnetic cartridge supplied.

### Dimensions/Weight:

440 x 147 x 370 mm / 6.1 kg

CS 505-4

CS 455-1

## CS 455-1 Fully automatic Deluxe turntable with floating sub-chassis for pure music enjoyment

### Tone arm:

Cardan bearing with zero-mass tracking force setting thanks to precision torsion spring. Removable headshell with 1/2 inch fixing holes. Adjustable tracking force and anti-skating. Carbon-fibre headshell mount for high torsional rigidity.

### Chassis:

Solid wooden frame. Floating subchassis. Vibration-damped aluminium platter with anti-static felt mat.

### Drive:

Belt drive with polished flat belt. DC motor with electronic speed control. Viscosity-damped tone arm lift mechanism. Automatic tone arm cueing mechanism. Autostop with tone arm return. Possibility to play old Shellac Records. OMB 10 magnetic cartridge supplied.

### Dimensions/Weight:

440 x 119 x 360 mm / 5.8 kg

Also available with these special cabinets: piano laquer black/silver, texture finish black/silver, walnut, piano laquer black/gold

## CS 435-1 Fully automatic

A superb combination: precision technology,  
a full range of comfort features and an attractive price

CS 435-1

### Tone arm:

Balanced tone arm. Adjustable counterweight and anti-skating. Headshell with 1/2 inch fixing holes. Torsionally rigid headshell mount.

### Chassis:

Solid wooden frame. Floating subchassis. Aluminium platter with anti-static felt mat.

### Drive:

Belt drive with polished flat belt. DC motor with electronic speed control. Viscosity-damped tone arm lift mechanism. Automatic tone arm cueing mechanism. Autostop with tone arm return. DMS 251 S magnetic cartridge supplied.

### Dimensions/Weight:

440 x 119 x 360 mm / 5.5 kg
